

PROGRAM MANAGEMENT AND OPERATIONS

Moving Programs from Concept to Delivery

Domain knowledge and experience are the foundation of our Program Management and Operations (PMO) support.

The Bowhead family of companies provides defense, government, and private sector customers with expertise in areas such as program management, systems engineering and integration, weapon systems acquisition management, logistics and supply support, software development, IT services support, risk management, training and simulation support, products procurement, and administrative services support.

Our PMO Group's talented staff combine theory with real-world experience to provide recommendations that help customers make decisions that offer best value, transparency, and defendability.

Core Competencies

We support our customers in planning and tracking programs for schedule, budget and performance in the follow areas:

- Quick response and low-risk approach to federal procurement strategies
- Providing critique of design reviews
- Developing acquisition strategies
- Reviewing budgets
