

SYSTEMS AND INFORMATION TECHNOLOGY

Moving Programs from Concept to Delivery

Bowhead's workforce is comprised of a large percentage of highly technical employees with advanced degrees in engineering, technology, and the sciences. Our Systems and Information Technology Group uses continuous process improvement to offer our customers tailored solutions to meet their diverse and growing needs.

The Bowhead family of companies provide defense, government, and private sector customers with expertise in areas such as program management, systems engineering and integration, weapon systems acquisition management, logistics and supply support, software development, IT services support, risk management, training and simulation support, products procurement, and administrative support services
