

BOWHEAD GLOBAL SYSTEMS AND TECHNOLOGY

Bowhead Global Systems and Technology, LLC is an Alaska Native 8(a) Small Disadvantaged Business that provides professional, scientific, and technical services in the forms of advice and assistance to businesses and other organizations on scientific and technical issues. Bowhead's workforce is comprised of a large percentage of highly technical employees with advanced degrees in engineering, technology, and the sciences. We use continuous process improvement to offer our customers tailored solutions to meet their diverse and growing needs as demonstrated by our certification and appraisal in AS9100:2016 and CMMI SVC v2.0 Level 3.

BGST will provide a unique range of Management, Analytical, and Technical Services to the federal, state, and local governments, and private industry. Areas of expertise include administrative management consulting services; applications processing; process design and re-engineering; financial planning and budgeting; data entry and analysis; call center management; site management; mail processing; quality assurance; quality control; records maintenance and archival; and business process improvement. Other areas of focus will include the following.
